# 1 I. Witness Qualifications

- 2 Q. Please state your name and business address.
- 3 A. My name is David Sackett. I am employed by the Illinois Commerce
- 4 Commission, 527 East Capitol Avenue, Springfield, Illinois 62701.

5

- 6 Q. What is your current job title?
- 7 A. I am employed as an Economic Analyst in the Policy Program of the Policy
- 8 Division of the Illinois Commerce Commission ("Commission" or "ICC").

9

- 10 Q. What are your responsibilities within the Policy Division Policy
- 11 **Program?**
- 12 A. I provide economic analysis and advise the Commission and other Staff
- members on issues involving the utility industries. I review tariff filings and
- make recommendations to the Commission concerning those filings. I
- provide testimony in Commission proceedings. I also serve as an assistant
- to administrative law judges. I am one of the primary Staff experts on
- 17 affiliate issues.

- 19 Q. State your educational background.
- 20 A. I graduated from Kankakee Community College with an Associate of
- 21 Science degree in Arts and Sciences in 1998. I graduated with highest
- 22 honors from Illinois State University with a Bachelor of Science degree in
- Economics and History in 2000. I obtained a Master of Science degree in

Applied Economics from Illinois State University in the Electric, Natural Gas and Telecommunications Economics sequence in 2002.<sup>1</sup> I also completed an internship at the Commission in the Energy Division in 2001.

# Q. Describe your professional experience.

Since July 2007, I have been an Economic Analyst in the Policy Program of the Commission's Energy and Policy Divisions. During that time I have participated in numerous docketed proceedings before the Commission. Of particular note has been my testimony regarding affiliate issues. Most recently, I filed testimony in Nicor Gas Company's Operating Agreement docket (Docket No. 09-0301 consolidated with Docket No. 11-0046, in which Nicor Gas Company sought approval of its reorganization); Docket Nos. 11-0280/11-0281 (Cons.) (North Shore Gas Company and The Peoples Gas Light and Coke Company rate proceedings); Docket Nos. 11-0561/0562/0563/0564/0565/0566 (Cons.) (a rate increase proceeding for certain Utilities Inc. water companies); Docket No. 11-0767 (an Illinois-American Water Company rate increase proceeding); Docket No. 12-0299 (North Shore Gas Company and The Peoples Gas Light and Coke Company proposal to enter into an affiliated interest agreement with its affiliate ITF); Docket Nos. 12-0511/12-0512 (Cons.) (North Shore Gas Company and The Peoples Gas Light and Coke Company rate

proceedings); Docket Nos. 12-0273/13-0612 (Cons.) (Commission Investigation into affiliated interactions by North Shore Gas Company and The Peoples Gas Light and Coke Company): Docket No. 14-0419 (Agua Illinois rate increase proceeding); Docket No. 14-0496 (Wisconsin Energy, Integrys Energy Group, Inc., Peoples Energy, LLC, ATC Management Inc., American Transmission Company LLC, The Peoples Gas Light and Coke Company and North Shore Gas Company Reorganization); Docket No. 15-0558 (The Southern Company, AGL Resources Inc., and Northern Illinois Gas Company d/b/a Nicor Gas Company Application for Approval of a Reorganization Pursuant to Section 7-204 of the Public Utilities Act.); and Docket No. 15-0608 (the Commission's Investigation concerning possible violation of Section 5-202.1 of the Public Utilities Act regarding The Peoples Gas Light and Coke Company, Integrys Energy Group, Inc., and Wisconsin Energy Corporation). Prior to joining the Commission, I was an instructor at Illinois State University from 2003 to 2006, where I taught various courses in economics and statistics to undergraduate students. I retired from the Marine Corps Reserve in 2014 as a Major after more than 21 years of service in the

# II. Purpose of Testimony and Background Information

Infantry, including two combat deployments to Iraq.

- Q. Please give some background on this case.
- 67 A. The Commission opened this docket to investigate claims made in two

anonymous letters regarding The Peoples Gas Light and Coke Company ("Peoples Gas"). These letters alleged improper practices by individuals associated with Wisconsin Energy Corporation ("WEC"), Integrys Energy Group ("Integrys"), and Peoples Gas related to WEC's acquisition of Integrys and Peoples and in connection with Peoples Gas' management of Peoples Gas' Accelerated Main Replacement Program ("AMRP"). The Commission further specified that the investigation would emphasize safety implications and encompass any further allegations of a similar nature as it pertains to the AMRP that may be disclosed in the future. (Corrected Initiating Order, March 11, 2015, 1) After the Corrected Initiating Order was filed, Staff received three additional letters, which it filed on e-docket in Docket No. 14-0496.

# Q. What is the subject matter of your direct testimony?

A. The purpose of my testimony is to present my analysis and recommendations on issues raised by several whistle-blower letters sent to the Commission. I respond generally to the testimony filed by Peoples Gas and specifically to that of Bryan Olson (PGL Ex. 1.0) and Sara Hurley (PGL Ex. 2.0).

#### Q. Do you have any attachments to your direct testimony?

A. Yes. I have several attachments to my direct testimony as listed in the table below. Several of these attached documents were provided by Peoples Gas in response to discovery in this case. The documents were posted by

Peoples Gas to a shared drive called Relativity. It is my understanding that all materials on the Relativity site were marked Confidential by Peoples Gas (with the exception of the Public Versions of DR Responses). As a result a significant portion of my testimony and all attachments are marked confidential<sup>2</sup>.

# III. Summary of Analysis and Recommendations

Q. Please summarize your recommendations.

A. I recommend that the Commission find conflicts of interest at Peoples Gas as described below in my testimony and I recommend the Commission direct Peoples Gas to correct the conflicts of interest and safety issues detailed herein, and to take action to ensure such conflicts of interest are avoided in the future.

#### Q. Do you recommend solutions to address the conflicts of interest?

A. Yes. I am offering for the Commission's consideration alternative recommendations that address existing conflicts of interest and which will prevent future ones. While I offer these specific alternatives for consideration, there may be other feasible alternatives for remedying the concerns I raise. To the extent Peoples Gas believes there are alternative solutions that may be more operationally efficient, I recommend Peoples Gas outline these alternatives in its rebuttal testimony; I will consider and may recommend the Commission adopt solutions other than those I propose

here, provided they correct existing conflicts of interest and prevent similar conflicts in the future.

### IV. Analysis

- Q. Please describe the allegations made to the Commission in Letter 3.
- 119 A. Letter 3³ alleges an inappropriate relationship between a person then
  120 employed as Peoples Gas' construction manager ("Manager")⁴ at the
  121 Central Shop and one of the contractors working for Peoples Gas on AMRP
  122 ("Vendor"). These allegations suggest that employees of Peoples Gas have
  123 conflicts of interest that Peoples Gas has not corrected. These conflicts of
  124 interest impact or have the potential to impact the costs to Peoples Gas for
  125 operating its system, as well as the safety of the Peoples Gas system.

126

127

- Q. Did Peoples Gas and Integrys thoroughly investigate and address these allegations?
- 129 A. In my opinion, they did not. Peoples Gas' investigation was conducted by
  130 Integrys Internal Audit Services ("IAS") and was generally limited to
  131 examination of e-mails and other electronically held documents and
  132 questioning of employees alleged to have behaved improperly. As

explained below, Peoples Gas did not question all employees who would likely have access to relevant information and it failed to follow up when even the limited information it examined suggested improper behavior or that employees were providing incorrect/inaccurate information.

### **Conflicts of Interest**

- Q. What did Integrys Internal Audit Services conclude about the allegations of an inappropriate relationship between the Manager and the Vendor?
- 141 A. Integrys investigated Letter 3's allegations and concluded that, \*\*\* BEGIN

155	Q.	How did Integrys define conflict of interest?
156	A.	Ms. Hurley provided Integrys' Code of Conduct, which states,
157 158 159 160 161 162 163 164		A conflict of interest occurs when an individual's private interest interferes, or even appears to interfere, with the interests of the company as a whole. A conflict situation can arise when your actions or interests make it difficult to perform your work objectively and effectively. Conflicts of interest also arise when an employee, officer or director, or a member of his or her family, receives improper personal benefits as a result of his or her position in the company.
165 166 167		(PGL Ex. 2.4, 8.) (emphasis added)
168	Q.	Did the Integrys code of conduct prohibit any other related activities?
169	A.	Yes. The code of conduct prohibited the receipt of any money (or its
170		equivalent) or solicitation of a gift or business favor from anyone who does
171		or seeks to do business with the Company. Significantly, Integrys made a
172		distinction between <b>receiving</b> a business favor or gift and <b>soliciting</b> a
173		Vendor for it. Solicitation of gifts or business courtesies from a Vendor of
174		any amount was in all cases a violation.
175 176 177 178 179 180 181 182		Gifts and Other Business Courtesies No director, officer, employee or a member of his or her family shall accept payments, loans, guarantees of obligations, services, or unusual favors from anyone soliciting business from the company, or who may already have established a business relationship with the company that is intended to influence, or appears to influence, a business decision or notontially places the recipient under any form of a
182		potentially places the recipient under any form of a commitment.

Giving and receiving gifts and other business courtesies of 184 185 nominal value can be an important and respectable way of 186 building and maintaining business relationships with agents, 187 suppliers, consultants, contractors and other vendors. Never 188 ask for a gift or business courtesy. Cash or its equivalent, 189 including gift cards, must never be accepted. 190 191 (PGL Ex. 2.4, 3) (emphasis added) 192 193 Do conflicts of interest arise only as a result of actions or can Q. 194 circumstances give rise to potential conflicts? 195 Both. Both Integrys' and WEC's Code of Conduct and conflict of interest Α. 196 definitions discuss both actions (process) and specific circumstances or 197 results which potentially give the appearance of impropriety or which are 198 prejudicial to the ethical operation of the corporation or business. 199 200 What evidence did you find of conflicts of interest? 302		However, his statement was incorrect. While the Manager's answer may

328		
329	Q.	What other concerns do you have regarding this conflict of interest?
330	A.	As stated above, both Integrys' and WEC's Codes of Conduct and conflict of
331		interest definitions discuss both actions and circumstances or results which
332		are prejudicial to the ethical operation of the corporation (or business).
333		Unfortunately, when evaluating the Manager's situation, both Integrys and
334		WEC focused on the circumstances and determined that it was not an
335		existing conflict of interest for a variety of reasons or mitigating
336		circumstances. Mr. Olson separated the allegation into issues, explained
337		how each individually was not problematic and then concluded that the
338		relationship was not inappropriate. In fact, while the Supervisor, Manager
		and his Subordinate approved hundreds of thousands of dollars for the

340 Vendor during this period, Mr. Olson refers only to the "approval authority 341 over only smaller projects," downplaying this authority, and never mentions 342 any actual approvals. (PGL Ex. 1.0, 19.) Mr. Olsen and WEC failed to 343 address the clear pattern of inappropriate behavior over more than a four-344 year period – behavior that resulted in the Vendor providing employment to 345 Peoples Gas employees' relatives and the same Peoples Gas employees 346 approving payments to the Vendor as well as providing the Vendor 347 information on pending contracts. 348 349 Q. What evidence of this improper focus did you find? 350 Α. The most questionable action the Manager took was when he appears to 351 have solicited the Vendor to employ his daughter in 2011 and again in 2014. 352 In his direct testimony, Mr. Olson stated that the daughter "was employed" by the Vendor. (PGL Ex. 1.0, p. 19) \*\*\* BEGIN CONF 353 354 XXXX END CONF \*\*\* See Attachment A, pages 2-3. \*\*\* BEGIN CONF 355 356 XXXXXXXXXXX 357 358 359 360 What if any weaknesses does this reveal about Integrys' investigation Q. 361 into the conflict of interest issue?

A.	Integrys' investigation of possible Code of Conduct violations was too
	narrow. Significantly, Integrys determined that the Manager had a "personal
	relationship" with the CEO of the Vendor which was described by a
	subordinate of that CEO as longstanding but this relationship was not
	prohibited by the Code of Conduct. Because of the limitations in the code of
	conduct, at no time did Integrys ask the about the personal nature of that
	relationship, its duration or its origins. Nor did Integrys mention that
	relationship in any conclusions, summaries or its direct testimony here.
	Integrys determined that a Peoples Gas employee's relative working for a
	vendor is not necessarily a conflict of interest. This investigation failed to
	take into account the fact that the evidence suggests the Manager asked
	that Vendor to hire his daughter and that the Manager has significant
	authority to take actions that directly benefit the Vendor. The Integrys Code
	of Conduct properly considers the possibility that, by accepting business
	courtesies, Peoples Gas employees might be placed in a position in which
	they might be inclined to exercise improper influence, and the Code
	accordingly prohibited the solicitation of any business favor. (PGL Ex. 2.4, p.
	3.) Providing a job for a family member (in response to a possible
	solicitation to do so) is significant. The Commission should not accept the
	Supervisor's and Integrys' failure to sanction such actions and their apparent
	conclusion that such actions are acceptable.
	A.

433		eliminate the conflicts of interest. Peoples Gas employees continue to have
434		unilateral authority to approve payments to a Vendor that employs their

451		
452	Q.	Did WEC conduct its own investigation to determine whether the

522	Q.	Do you have any solutions that would correct the existing conflicts of
523		interest?
524	A.	Yes. In order to remove the conflicts of interest I identify above, I offer the
525		following alternative recommendations:
526		Alternative Recommendation 1: Employee Limitations
527		The Commission should prohibit any Peoples Gas, North Shore Gas or
528		WEC Business Services LLC ("WBS") employees with family members <sup>14</sup>
529		that work for a vendor that does business with Peoples Gas, North Shore
530		Gas or WBS from (1) approving payments to the vendor; or (2) approving
531		work orders for the vendor, or (3) approving any action by Peoples Gas,
532		North Shore Gas or WBS which provides a direct benefit to the vendor.
533		Or
534		Alternative Recommendation 2: Vendor Limitations

<sup>&</sup>lt;sup>14</sup> "Family member" Staff recommends adopting the definition of "Family member" found in the State Officials and Employees Ethics Act: a person related to the individual as father, mother, son, daughter, brother, sister, uncle, aunt, great aunt, great uncle, first cousin, nephew, niece, husband, wife, grandfather, grandmother, grandson, granddaughter, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, half sister, and including the father, mother, grandfather, or grandmother of the individual's spouse and the individual's fiancé or fiancée. . See 5 ILCS 430/10-15(6) (State employee gift ban).

The Commission should require Peoples Gas, North Shore Gas and WBS to require employees to identify Family Members who are employed by vendors who transact business with Peoples Gas, North Shore Gas or WBS, and to recuse themselves from participating in any transactions involving the employing vendor. Peoples Gas, North Shore Gas and WBS should be required to report annually to the Commission's Director of the Policy Division regarding the number of employees who have Family Members who work for its vendors and sub-contractors. As a condition of employment with Peoples Gas, North Shore and WBS, employees shall be prohibited from negotiating for or accepting offers of employment with vendors or sub-contractors that do business with Peoples Gas, North Shore Gas or WBS and with whom the employee engages as part of his or her employment.

Along with either recommendation above, the Commission should also require Peoples Gas to inform the Commission's Director of the Policy Division of every EthicsLine, 15 code of conduct or conflict of interest allegation related to its operations or costs within thirty days of the allegation. The utility should also, for each allegation, and within thirty days of resolution, provide the Commission's Director of the Policy Division with a written report summarizing any actions taken to investigate and respond to the allegation and a description of how the utility resolved the matter.

<sup>&</sup>lt;sup>15</sup> EthicsLine is a third-party administered telephone line and web-based site, through which any employee can report a concern or ask a questions, anonymously if the employee desires. (PGL Ex. 1.0, 10.)

556 Finally, the Commission should order Peoples Gas to submit to the 557 Commission Staff within 60 days of the final order in this case a Code of 558 Conduct that the utility will adopt which reflects the Commission's findings in 559 this proceeding, as well as an associated implementation plan. The 560 implementation plan shall include but not be limited to a timetable for 561 implementation of the Code of Conduct and a description of how employees 562 will be informed about and memorialize agreement with the Code of 563 Conduct.

# Safety Inspectors

- Q. What did the Commission state in its Initiating Order about safetyrelated situations?
- As quoted above, in its Initiating Order the Commission expressed a specific concern about the potential for mismanagement to lead to unsafe situations.

  The Commission and the Staff Report indicate that safety is a primary concern for this investigation.

572

- Q. What did Mr. Olson conclude about safety-related deficiencies?
- A. Mr. Olson stated that the review of the Letter 3 allegations did not reveal evidence to support any safety-related deficiencies. (PGL Ex. 1.0, 20.)

  Furthermore, Mr. Olson addresses a second internal investigation entitled Anonymous Tip #2 which alleges that, "an employee was pressuring a contract inspector for being too strict and writing up too many deficiencies,"

579 and, after alleging that the claims were "unsubstantiated," reaches the same 580 conclusion that there is no evidence to support any safety-related 581 deficiencies. Id. at 25. 582 583 Q. Do you agree with these conclusions? 584 I do not. Peoples Gas and its auditors appear not to have followed up Α. 585 regarding several safety-related allegations. The Company seemingly failed to follow up on evidence uncovered in its investigations suggesting safety 586 587 may have been compromised. (PGL Ex. 1.0, 20, 25.) Notably, the 588 employee who was alleged to be "pressuring a contract inspector" was the 589 Manager named in both Letter 3 and Letter 5. Peoples Gas repeatedly 590 treated each of these investigations separately when they may well be 591 related. 592 593 Q. What involvement do the inspectors in question have related to safety 594 during the construction process? 595 According to the Manager, the \*\*\* BEGIN CONF Α. 596 597 598 599 600 END CONF \*\*\* See, Attachment D (Interview Notes), page 7 The Code 601 192 refers to federal safety regulations and standards codified at 49 C.F.R.

Thus, a significant part of the duties of these inspectors was to ensure safety during construction. Q. Does Peoples Gas acknowledge the process of manager involvement in the inspection function should be reassessed? Yes. In His Confidential Summary Memo to the Ethics Committee, Mr. Α. Olson also concluded that \*\*\* BEGIN CONF See Attachment A, page 8. However, as noted above, in investigating the whistle blower letters Peoples Gas reports no safety concerns. Bryan Olson refers to making "process improvements to ensure that the independence of inspectors was preserved." (PGL Ex. 1.0, 25) Mr. Olson does not acknowledge that the current process for hiring contractors, leads to the appearance of impropriety and could create potential or actual conflicts of interest as his report to the

633 ethics committee indicates. The process changes referred to by Mr. Olsen 634 presumably leave in place the inspectors hired under the flawed process. 635 636 Q. How do the process for hiring inspectors and the reporting structure for 637 inspectors create potential safety issues? Mr. Olson interviewed two other people (Integrys' Manager, Technical 638 Α. 639 Training and Quality Assurance<sup>16</sup> and the AMRP Quality Manager, a 640 contractor) who each indicated that the structural arrangement and 641 relationship between inspectors and contract and/or shop managers led to 642 problems. What evidence did you find that the Manager improperly influenced 656 inspectors and their inspections? The Confidential Interview Transcript from Mr. Olson's interview with 657 Α. 658 Integrys' Manager, Technical Training and Quality Assurance ("Quality Assurance Manager") (PGL 0279681) states: \*\*\* BEGIN CONF XXXXXXX 659 660 661 662 663 664 XXXXXXXXXXXXX END CONF \*\*\* See Attachment P, page 5., emphasis 665 666 added) \*\*\* BEGIN CONF 667 668 CONF \*\*\* Id. at 2 who then served as the Field Technical Specialist in the 669 Project Management Office and as a trainer. 680	Q.	What additional evidence did you find that the Manager improperly
681		influenced inspectors?
682	A.	As stated above, Mr. Olson dismisses allegations of intimidation of this
683		Inspector by this Peoples Gas Manager as "unsubstantiated." This
684		conclusion ignores certain available information. First, it ignores the
685		information from Integrys' Manager that the Peoples Gas Manager may
686		have been the cause of the inspector leaving. Second, the information Mr.
687		Olson relies on appears to be inaccurate. In particular, the Manager, who
688		was alleged to have exerted pressure on the Inspector, stated that the
689		Inspector was not at his shop "very long" and that he did not remember any
690		issues with Inspector's work. Integrys did not pursue the discrepancy
691		between the statements of the Quality Assurance Manager and those made
692		by the Manager who was alleged to have exerted pressure. Integrys did not
693		seek to verify the statements of the Peoples Gas Manager alleged to have
694		exerted influence regarding the short assignment of Inspector to Central
695		Shop or to determine if the job which the AMRP Quality Manager indicated

696		required continued reporting to get addressed was a Central Shop project.

733	Q.	Has there been any change in the composition of inspection crews?
734	A.	While Peoples Gas acknowledges that the design should change, no
735		mention is made of altering the composition of the crew of inspectors at
736		Central Shop. If they are influenced by the Manager who, continues to have
737		opportunities to influence Vendor, the potential for improper influence
738		remains entrenched in the Central Shop District. Furthermore, in light of his
739		relationship with the Vendor, the Manager can, if he chooses, avoid the
740		effect of any new policy that removes the shop manager role in assigning

741		inspectors by going directly to the CEO of the Vendor and recommending			
742		actions in line with the Manager's wishes.			
743					
744	Q.	What did Mr. Olson conclude about the allegations found in			
745		Anonymous Letter 2?

781		
782	Q.	What do you conclude about the safety-related issues pertaining to
783		these allegations and the subsequent investigation?
784	A.	I conclude that Peoples Gas did not place sufficient emphasis on possible
785		safety implications. As a result Peoples Gas left the inspector crew in place.
786		Furthermore, as Peoples Gas subsequently promoted this Manager, there

was a potential that the apparent practice of influencing safety inspections may spread.

### Q. Did WEC implement Mr. Olson's recommendations?

A. No. According to recent information provided by Peoples Gas, Peoples Gas'
new management (WEC) did not pursue the recommendations of the report,
or implement a policy to address inspector independence. See Attachment
A, page 2. This should be a source of concern, because the system that
Peoples Gas new management adopted does not correct or even address
several of the issues raised.

# Q. Please describe briefly the previous system of inspections.

A. Inspections at Peoples Gas are found in two roles, Quality Control ("QC") and Quality Assurance. In the previous system that was in place under Integrys management, contract inspectors performed the QC role at each shop. These were the positions that the Manager shifted from another contractor to the Vendor. They were also the positions held by employees he was alleged to have had fired or re-assigned. The QA role was a part of Compliance Monitoring Group ("CMG") and included the AMRP Quality Manager and the Field Technical Specialist. The CMG was a part of the same reporting line as main construction work. Id.

# Q. What has changed since the acquisition?

810	A.	QC is being converted from contracted inspectors to Field Coordinators,
811		some of whom are still contractors, while others are employees. CMG
812		(including QA) has been shifted to a different reporting chain than
813		construction; thus, CMG is allegedly "independent of the Construction
814		group." <u>Id.</u>
815		
816	Q.	What concerns do you have about this new system or arrangement?

828		
829	Q.	Do you offer any recommendations that would, if implemented, correct
830		the existing safety issues?
831	A.	Yes. If has not already done so, Peoples Gas should redefine the duties of
832		senior construction managers, and those of shop managers to make certain

833		that such managers have no role in the selection and retention, evaluation or			
834		dismissal of inspectors at shops. Furthermore, I offer two recommendations			
835		that would correct the current composition of contract inspectors at the shop.			
836					
837	Q.	What Recommendations Do You Make Regarding Safety Issues?			
838	A.	Peoples Gas shop-level <sup>19</sup> or higher-level construction managers should not			
839		be permitted to have any role in the selection and retention of inspectors at			
840		shops. Furthermore, there are two solutions that would address conflict of			
841		interest issues that arise from the current composition of contract inspectors			
842		at the shop. Peoples Gas could either:			
843		Alternative Recommendation 1: Randomly re-assign all contract			
844		inspectors.			
845		Or			
846		Alternative Recommendation 2: Move all Central shop contracted			
847		inspectors to other shops or roles.			
848					
849	Q.	Do you have any additional recommendations?			
850		Yes, in addition to the recommendations noted above, Peoples Gas			
851		should be required to do the following.			

 $<sup>^{\</sup>rm 19}$  Peoples Gas has three districts (North, Central and South) which are referred to internally as "shops."

852		0	Peoples Gas must present its initiatives to address safety-related
